national law on the care and use of laboratory animals was followed. Animal be as humane as possible and the details of anaesthetics and analgesics used should be clearly stated. The ethical standards of experiments must be according to the guidelines provided by the CPCSEA (animal) and ICMR (human). The journal will not consider any paper which is ethically unacceptable. A statement permission and ethical practices must be included in all research articles under the 'Materials and Methods' section.

- ✓ References must be typed in the following order:

#### **Standard Journal Article**

Author(s) of article (Surname initials). Title of article. Journal title. Year of publication; Volume number (issue number): Page numbers.

(If more than six authors, then first three shall be listed followed by et al.)

Shyam DV and Johny LK. Modification and Characterization of Acacia Gum. Indian Journal of Pharmaceutical Sciences. 2010;20(1):15-25.

#### **Books and other Monographs**

Author(s) of Book (Surname initials). Title of Book. Edition. Publisher; Place of publication; Year of publication.

#### **Personal author(s)**

Eisen HN. Immunology: an introduction to molecular and cellular principles of the immune response. 5th Edition. New York: Harper and Row; 1974.

#### **Chapter or Article in a book**

Author(s) of Chapter (Surname initials). Title of Chapter. In: Editor(s) name, Editors. Title of Book. Place of publication: Publisher; Year of publication, Page numbers.

Kelly HW and Sorknes CA. Asthma, DiPiro JT, Talbert RL, Yee GC, Matzke TR, Wells BG, Posey LM, Pharmacotherapy- A Pathophysiological Approach, Sixth Edition, The McGraw-Hill; 2005.504

### **Patent**

Larsen CE, Trip R, Johnson CR, inventors; Novoste Corporation, assignee. Methods for procedures related to the electrophysiology of the heart. US patent 5529 067. 1995.

- ✓ Responsibility of the contents rests upon authors but not upon the publisher or editor.

### **Review Articles**

Review articles should contain up-to-date information providing comprehensive coverage of relevant literature. Review Articles need not be divided into sections such as Materials and methods, Results and discussion, but should definitely have an abstract and introduction.
